

Mean of SIR simulations for different network types with $N = 1000$ and $\langle k \rangle = 10$ and various λ

$\beta = 0.050, \gamma = 0.1, \lambda = 0.500$

$\beta = 0.067, \gamma = 0.1, \lambda = 0.667$

$\beta = 0.100, \gamma = 0.1, \lambda = 1.000$
